

# Fifty Largest RCRA Hazardous Waste Receivers, 2007

Report run on: October 23, 2009 - 2:11 PM

Version 5.0

## User Selection Criteria

**Location:** Florida

**BR Cycle:** 2007

## Results:

Data meeting the criteria you selected follows.

Total Pages: 2

## Report Description

This report lists the fifty largest RCRA hazardous waste receivers within the handlers selected (State or National). The receivers are ranked high to low based on their total RCRA hazardous waste received. The EPA handler ID, handler name, site location city, and total quantity of federal RCRA hazardous waste received (in tons) are provided. There may be less than fifty facilities listed due to the State having less than fifty receivers.

All received quantities refer to the received quantities reported for the National Biennial RCRA Hazardous Waste Report. Quantities are limited to wastes meeting the following criteria: the waste was received from an off-site source by a site that was flagged for inclusion in the National Biennial RCRA Hazardous Waste Report, and the WR form waste was flagged for inclusion in the National Biennial RCRA Hazardous Waste Report.
